

AMENDMENTS TO THE SPECIFICATION

Please amend the specification as follows:

The paragraph beginning on pg. 3 and ending on pg. 4 is amended as follows:

The “print setting” means various pieces of setting information of the print mode of enlargement, reduction, etc., the number of print sheets, etc., for example. As the “image read means,” a scanner, a digital still camera, etc., can be adopted, for example. As the “predetermined image processing,” enlargement, reduction, image layout, etc., can be named, for example.
